**the five spot** our five faves of the moment

**5** Erica Spitzer Rasmussen has fabulous, clothing-inspired sculpture (mostly autobiographical) for every occasion in her smart show at Concordia University. It includes a dress garnished with watermelon seeds (to induce fertility), a gold-leaf bustier studded with matches (to celebrate the conception of her son), a shift decorated with spot-bandages (because after age 40, "it's all patch and repair") and this jazzy top designed "to amplify a woman's natural shape." And how! *H. Williams Teaching Gallery, Concordia Art Center, 1031 Marshall Av., St. Paul.*
